DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haber et al. in view of Eldridge.

Haber et al. shows all of the limitations of the claims except for specifying that the communications between a vehicle dealership representative and a consumer would be the object of the audio-visual record.

Haber et al. shows a system for time-stamping a digital document, for example any alphanumeric, video, audio (actuating software to run digital video and audio is inherent, evidence patents have been provided in past office actions), or pictorial data. The representation is transmitted to an outside agency (storage database). The content of a document and a time stamp of its existence are "indelibly" incorporated into the digital data of the document. (column 2, lines 55-57) If further proof were demanded upon adversary allegation, the document or video could be retrieved. (playing stored audio and video in response to an allegation) (column 8, lines 3-5) The disclosure states that in many situations there is a need to establish the date on which a document was created and to prove that the text of a document in question is in fact the same as that of the original dated document. (column 1, lines 6-9)

Eldridge teaches, abstract, that the growing practice by car dealers of videotaping the sales transactions is done in order to protect customers from their finance and insurance staff.

Based on the teaching of Eldridge, it would have been obvious to one of ordinary skill in the art, at the time the invention was made, to modify the Haber et al. invention to be used in a car dealership in order to protect the customers.

Response to Arguments

Applicant's arguments with respect to all claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
